Professional Experience

Senior Web Developer, GrooveLife • March 2022 - Present
- Set up development and deployment processes to connect developers to a central repository and run automatic code and performance checks.
- Brought website code up to date with the latest features from Shopify Web 2.0
- Optimized website performance, removing or re-writing libraries with a performance focus (brought Google Lighthouse scores up to passing Google's Core Web Vitals)
- Worked with Design, Data, Product teams to build out new features and launches for the website.
- Built out internal tools testing out new technologies (AI generated web content, testing Shopify product updates)

Front-End Developer, Wpromote • July 2016 - March 2022
- Started as Employee #2 on the creative development team, helped build team & services offered, as well as company best practices & development processes.
- Built websites/ e-commerce stores/ interactive infographics/ html emails for a wide range of clients.

Freelance Web Developer • July 2014 - Present
- Built and managed team of developers to meet clients needs.
- Worked remotely with clients through multiple design iterations to create satisfactory websites.
- Used content management systems such as Wordpress, as well as creating sites from scratch.

Developer

GrooveLife
Worked on Shopify theme building out new features and performance updates.

Island Cannabis Co
Built Shopify theme from scratch, edited core Shopify functionality to fit with cannabis industry restrictions.

CreateMe
Created site using the Gatsby.js React framework. Interacts with custom-built Prismic CMS.

Trex Furniture - Little Chair Big Impact
An interactive infographic about how furniture affects the environment. Learned/ implemented CSS shape animations unique to each slide

Maker (some viewable on github)

GrooveBot
Used OpenAI libraries to create a content generation tool used internally at GrooveLife

Age Verify w/ Email Capture
Created this Shopify app built with Node/ React.js. Used on over 400 stores and has a 5 star rating on Shopify's app store.

Snooz
Worked with a graphic designer & a UX/UI designer to create an app with the goal of helping you become a morning person. Developed the app in React-Native. Currently available on the App Store.

AlphaDex
Built an informational site using Gatsby.js / GraphQL / React for a freelance client looking to generate more leads
